"Leading Change: Supporting the Development of the Afghan National Army's Academy of Medical Sciences "

Biography - Major Jonathan Mackey

Major Mackey joined the Canadian Forces in 1994 and completed clinic management and operational missions as a Health Support Operations Officer at home and abroad. His recent experiences include a Masters of Health Administration from UBC, Commanding the Edmonton Garrison Health Services Centre, and acting as Deputy Team Lead and Administrative Systems Mentor to the Afghan Armed Forces Academy of Medical Sciences (AFAMS). Major Mackey is currently the officer in charge of individual training and education for Canadian Forces Health Services in the western Canada and the arctic. He resides in St. Albert with his wife Edith and children Victoria and Santiago.

Abstract - Leading Change: Supporting the Development of the Afghan National Army's Academy of Medical Sciences

From Mar 2012 to Aug 2012 Major Jonathan Mackey was deployed to Kabul, Afghanistan, with the Canadian Forces as an Advisor at the Afghan National Army's (ANA) Armed Forces Academy of Medical Sciences (AFAMS). The Combined Canadian and US team was focused on the challenge of developing the educational and institutional capacity of the academy to enable sustainable, standardized and high quality education. The CCHL LEADS framework proved to be an effective tool for advisors in supporting institutional change and growth at the academy. Several of the cultural, organizational and personnel challenges for the team will be briefly discussed.
