The Southwestern Ontario Chapter Presents: Trends in Global Health Systems Innovation: Opportunities and Challenges

Thursday, November 22, 2012

5:00 p.m. to 8:30 p.m.

Four Points, 1150 Wellington Road South, London, Ontario, N6E 1M3

Featured Speaker: **Dr. Anne Snowdon, RN, BScN, MSc, PhD**, Chair, International Centre for Health Innovation, Richard Ivey School of Business

Dr. Anne Snowdon is Chair of the International Centre for Health Innovation at the Richard Ivey School of Business. In addition to leading the Centre, Dr. Snowdon is a Professor at the Richard Ivey School of Business, and has cross-appointments in Western's Faculty of Health Sciences and Faculty of Engineering. She is an Associate Professor to the adjunct academic staff of the School of Rehabilitation Therapy at Queen's University.

Dr. Snowdon holds a Bachelor of Science in Nursing from The University of Western Ontario, a Master of Science from McGill University and a PhD in Nursing from the University of Michigan. She is a Fulbright Scholar and was awarded the Social Sciences and Humanities Research Council Doctoral Fellowship for her doctoral research. Dr. Snowdon is the Principal Investigator for a Strategic Teams for Applied Injury Research (STAIR) grant funded by the Canadian Institutes for Health Research (CIHR). This research focuses on injury prevention for children, which has resulted in the commercialization of innovative new safety seat products for child occupants in vehicles.

Dr. Snowdon's first-hand experience as a health practitioner and as a researcher has led her to conclude that bottom-up demand-creation and greater involvement of patients in their treatment will drive change and force reform of the financial and system models of health care delivery around the world.
